#### Important Messages from Your Natural Gas Company

#### HELP FOR MANAGING YOUR ENERGY USE

Atmos Energy has tools and information to help manage your energy use, control energy costs, and lower your carbon footprint. Now is the best time to make improvements around the house that can lower your energy use year-round. Visit www.atmosenergy.com/EnergyTips to discover energy saving tips, plus check out the new Bill Comparison tool to better understand your bill.

#### CUSTOMER CHARGE EXPLANATION

The customer charge on your bill reflects a basic charge of \$56.50 and a Conservation and Energy Efficiency surcharge of (\$0.01) for a net customer charge of \$56.49. For more information about your bill, visit atmosenergy.com/rrm.

Go paperless with E-Bill and sign up for other billing and payment options at www.atmosenergy.com.

For instructions on reading your Atmos Energy bill, please visit www.atmosenergy.com/yourbill.

# A CLOSER LOOK AT YOUR GAS BILL

As summer comes to a close and we begin preparing for cooler temperatures this fall, Atmos Energy wants you to be aware that the cost of all energy sources has increased. Based on current market prices, your monthly natural gas bills are expected to be higher this winter. As a regulated utility, Atmos Energy cannot earn a profit off the natural gas we deliver; we are only allowed to pass through our cost to customers.

Consider taking steps now to help control your energy use and manage your natural gas bills for the upcoming winter heating season.

- Sign up for Budget Billing for a more predictable winter bill.
- Find financial assistance if you are struggling to pay your bill.
- Conserve energy by making a few household changes.

Visit a macoaniergy com/Closed act. to learn more.

120°F

#### IS YOUR HOT WATER TOO HOT?

Water temperatures higher than 120°F can cause serious burns or even death. Children, people with disabilities and the elderly are at high risk for being scalded by hot water. Read and follow the instructions for your water heater before setting its temperature controls. Always test the water before stepping into the bath, bathing your child or helping a disabled or elderly person into the bath.

#### Help Your Neighbors in Need. Contribute to Sharing the Warmth

You can help the elderly, the disabled and families in need keep their homes warm and secure by donating to Atmos Energy's Sharing the Warmth program.

All donations are distributed to a local area non-profit energy assistance agency(s) that serves your community. Visit www.atmosenergy.com/share to find agencies near you.

Please indicate the contribution amount below to be billed monthly on your Atmos Energy statement.

Thank you for sharing the warmth with those in need in your community.

# A CLOSER LOOK AT YOUR GAS BILL

As summer comes to a close and we begin preparing for cooler temperatures this fall, Atmos Energy wants you to be aware that the cost of all energy sources has increased. Based on current market prices, your monthly natural gas bills are expected to be higher this winter. As a regulated utility, Atmos Energy cannot earn a profit off the natural gas we deliver; we are only allowed to pass through our cost to customers.

Consider taking steps now to help control your energy use and manage your natural gas bills for the upcoming winter heating season.

- Sign up for Budget Billing for a more predictable winter bill.
- Find financial assistance if you are struggling to pay your bill.
- Conserve energy by making a few household changes.

Visit annexe way teem/Clevenheels to learn more.

## A CLOSER LOOK AT YOUR GAS BILL

As summer comes to a close and we begin preparing for cooler temperatures this fall, Atmos Energy wants you to be aware that the cost of all energy sources has increased. Based on current market prices, your monthly natural gas bills are expected to be higher this winter. As a regulated utility, Atmos Energy cannot earn a profit off the natural gas we deliver; we are only allowed to pass through our cost to customers.

Consider taking steps now to help control your energy use and manage your natural gas bills for the upcoming winter heating season.

- Sign up for Budget Billing for a more predictable winter bill.
- Find financial assistance if you are struggling to pay your bill.
- Conserve energy by making a few household changes.

Visit atmosenergy.com/CloserLook to learn more.

120°F

#### IS YOUR HOT WATER TOO HOT?

Water temperatures higher than 120°F can cause serious burns or even death. Children, people with disabilities and the elderly are at high risk for being scalded by hot water. Read and follow the instructions for your water heater before setting its temperature controls. Always test the water before stepping into the bath, bathing your child or helping a disabled or elderly person into the bath.

### Important Messages from Your Natural Gas Company

#### HELP YOUR NEIGHBORS STAY WARM

Help your neighbors stay warm by donating to Atmos Energy's Sharing the Warmth Program. Donate by selecting Round Up or checking the amount you wish to contribute on the back of your gas bill, by visiting www.atmosenergy.com/share, or by calling 1-888-286-6700 to find out more information.

Your tax deductible donation is added to your monthly bill. You can change or end your donation at any time. All donations will assist the elderly, disabled and families in need.

#### CUSTOMER CHARGE EXPLANATION

The customer charge on your bill reflects a basic charge of \$63.50 and a Conservation and Energy Efficiency surcharge of (\$0.01) for a net customer charge of \$63.49. For more information about your bill, visit atmosenergy.com/rrm.

Remittance Instructions -- To improve customer service, Reliant will process payments by invoice number. Your invoice number must be included with your payment to ensure that your account is properly credited. Your invoice number is shown in the box at the top of this invoice. You can provide your invoice number by sending the attached bill stub with your paymentor by printing the invoice number on your check advice. Please include invoice number with all payments.

Electronic Payment Method Option: Online Account Management- Try our new online account management tool where you can access your account anytime. You can pay bills on the spot, download invoices, add and delete site locations, view billing information and energy usage, create customer report settings and more. Call us today at 1-888-315-1558 to activate your account and get started.

#### Hurricane Preparedness: Hurricane Season is June 1 - Nov. 30 Preparedness Checklist:

- Make an EvacuationPlan. Find activated evacuation routes here: DriveTexas.orgor by dialing (800) 452-9292. Call 2-1-1 to find out if you live in an evacuation
- Sign-Up for Emergency Alerts. Make sure your device is enabled to receive Wireless Emergency Alerts (WEAs).
- Prepare an Emergency Supply Kit, Learn how to build an emergencykit here; https://www.readv.gov/build-a-kit
- Review Your Home Insurance Policy.
- Register with State of Texas Emergency Assistance Registry (STEAR): https://STEAR.tdem.texas.gov/or by dialing 2-1-1 if you live in evacuationzone and:
- have a disability or medical needs and do not have a car or other vehicle to use in an evacuation.
- have a disability or medical needs and do not have friends or family to help in an evacuation.\*\*STEAR Registry information collected is confidential\*\*

#### **Hurricane Preparedness Online Resources:**

Texas Division of Emergency Management Website: www.tdem.texas.gov

Texas Department of State Health Services: www.texasready.gov

American Red Cross: www.redcross.org

U.S. Department of Homeland Security: www.ready.gov

Office of the Texas Governor Greg Abbott: www.gov.texas.gov

PUCT Required Notice: Involuntary Load Shedding. If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as involuntary load shedding, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit reliant.com/loadshed.

#### Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependentupon an electric-poweredmedical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a major life function through a significant deteriorationor exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruptionor suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

Call us today at 1-888-315-1558 to activate your account and get started.

#### Hurricane Preparedness: Hurricane Season is June 1 - Nov. 30 Preparedness Checklist:

- Make an EvacuationPlan. Find activated evacuation routes here: DriveTexas.orgor by dialing (800) 452-9292. Call 2-1-1 to find out if you live in an evacuation zone
- Sign-Up for Emergency Alerts. Make sure your device is enabled to receive Wireless Emergency Alerts (WEAs).
- Prepare an Emergency Supply Kit. Learn how to build an emergencykit here: https://www.ready.gov/build-a-kit
- Review Your Home Insurance Policy.
- Register with State of Texas Emergency Assistance Registry (STEAR): https://STEAR.tdem.texas.gov/or by dialing 2-1-1 if you live in evacuationzone and:
- have a disability or medical needs and do not have a car or other vehicle to use in an evacuation.
- have a disability or medical needs and do not have friends or family to help in an evacuation.\*\*STEAR Registry information collected is confidential\*\*

#### Hurricane Preparedness Online Resources:

Texas Division of Emergency Management Website: www.tdem.texas.gov

Texas Department of State Health Services: www.texasready.gov

American Red Cross: www.redcross.org

U.S. Department of Homeland Security: www.ready.gov

Office of the Texas Governor Greg Abbott: www.gov.texas.gov

PUCT Required Notice: Involuntary Load Shedding. If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as involuntary load shedding, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit reliant.com/loadshed.

#### Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependentupon an electric-poweredmedical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as having a serious medical condition that requires an electric-poweredmedical device or electric heating or cooling to prevent the impairment of a major life function through a significant deteriorationor exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

**PUCT Required Notice: Involuntary Load Shedding.** If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as **involuntary load shedding**, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit **reliant.com/loadshed**.

#### Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependent upon an electric-powered medical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a
  physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a
  major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruptionor suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

**PUCT Required Notice: Involuntary Load Shedding.** If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as **involuntary load shedding**, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit **reliant.com/loadshed**.

#### Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependent upon an electric-powered medical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a
  physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a
  major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

**PUCT Required Notice: Involuntary Load Shedding.** If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as **involuntary load shedding**, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit **reliant.com/loadshed**.

## Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependent upon an electric-powered medical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a
  physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a
  major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruptionor suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

**PUCT Required Notice: Involuntary Load Shedding.** If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as **involuntary load shedding**, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit **reliant.com/loadshed**.

#### Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanentlyresiding in his or her home who has been diagnosed by a physician as being dependentupon an electric-powered medical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a
  physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a
  major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicabledesignation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

PUCT Required Notice: Involuntary Load Shedding. If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as involuntary load shedding, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit reliant.com/loadshed.

# Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependentupon an electric-poweredmedical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a major life function through a significant deteriorationor exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

**PUCT Required Notice: Involuntary Load Shedding.** If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as **involuntary load shedding**, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit **reliant.com/loadshed**.

# Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanentlyresiding in his or her home who has been diagnosed by a physician as being dependentupon an electric-powered medical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a
  physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a
  major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

PUCT Required Notice: Involuntary Load Shedding. If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as involuntary load shedding, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit reliant.com/loadshed.

# Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependentupon an electric-poweredmedical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as having a serious medical condition that requires an electric-poweredmedical device or electric heating or cooling to prevent the impairment of a major life function through a significant deteriorationor exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

U.S. Department of Homeland Security: www.readv.gov

Office of the Texas Governor Greg Abbott: www.gov.texas.gov

PUCT Required Notice: Involuntary Load Shedding. If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as involuntary load shedding, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit reliant.com/loadshed.

### Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependentupon an electric-poweredmedical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a major life function through a significant deteriorationor exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

reliant.

Reliant Account: 12 466 350 - 1 Customer Name: HENDERSON COUNTY Page 3 of 3 Date Due: 11/14/2022

Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

 Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependent upon an electric-powered medical device to sustain life.

Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a
physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cool
 ng to prevent the impairment of a
major life function through a significant deterioration or exacerbation of the person's medical condition.

Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewater facilities.

Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would dreate a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicabledesignation, which affords certain protections. Please contact Reliant for more information. Oritical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

**PUCT Required Notice: Involuntary Load Shedding.** If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as **involuntary load shedding**, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit **reliant.com/loadshed**.

## Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependent upon an electric-powered medical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanentlyresiding in his or her home who has been diagnosed by a
  physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a
  major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

Remittance Instructions -- To improve customer service, Reliant will process payments by invoice number. Your invoice number must be included with your payment to ensure that your account is properly credited. Your invoice number is shown in the box at the top of this invoice. You can provide your invoice number by sending the attached bill stub with your payment or by printing the invoice number on your check advice. Please include invoice number with all payments.

Electronic Payment Method Option: Online Account Management- Try our new online account management tool where you can access your account anytime. You can pay bills on the spot, downloadinvoices, add and delete site locations, view billing information and energy usage, create customer report settings and more. Call us today at 1-888-315-1558 to activate your account and get started.

# Hurricane Preparedness: Hurricane Season is June 1 - Nov. 30 Preparedness Checklist:

- Make an Evacuation Plan. Find activated evacuation routes here: Drive Texas.orgor by dialing (800) 452-9292. Call 2-1-1 to find out if you live in an evacuation zone.
- Sign-Up for Emergency Alerts. Make sure your device is enabled to receive Wireless Emergency Alerts (WEAs).
- · Prepare an Emergency Supply Kit. Learn how to build an emergencykit here: https://www.ready.gov/build-a-kit
- Review Your Home Insurance Policy.
- Register with State of Texas Emergency Assistance Registry (STEAR): https://STEAR.tdem.texas.gov/or by dialing 2-1-1 if you live in evacuationzone and:
- have a disability or medical needs and do not have a car or other vehicle to use in an evacuation.
- have a disability or medical needs and do not have friends or family to help in an evacuation.\*\*STEAR Registry information collected is confidential\*\*

**PUCT Required Notice: Involuntary Load Shedding.** If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your transmission and distribution utility (TDU) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as **involuntary load shedding**, and it will be conducted based on the TDU's procedures. For more information and to learn how you can help conserve energy, visit **reliant.com/loadshed**.

## Notice - Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical Care Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependent upon an electric-powered medical device to sustain life.
- Chronic Condition Residential Customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a
  physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a
  major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical Load Public Safety Customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewaterfacilities.
- Critical Load Industrial Customer: An industrial customer for whom an interruptionor suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical Care Residential Customer and Chronic Condition Residential Customer designations require an application your physician completes and submits to your transmission and distribution utility (TDU) on your behalf. Critical Load Public Safety Customer and Critical Load Industrial Customer designations require you to complete an application with your TDU.

TRINITY VALLEY ELECTRIC COOPERATIVE INC. PO BOX 1228 KAUFMAN TX 75142-5403 <u>Կիլոյելերորոլովիլեն/ՄիիդիկներՄերոնիրի</u>

<u>PCRF</u>: The Power Cost Recovery Factor (PCRF) is the formula used to adjust your electric bill to reflect increases or decreases in the cost of electricity TVEC purchases from its wholesale power supplier for distribution to its members. Some electric utilities refer to this type charge as fuel costs adjustments.

The base rate of the PCRF includes the average cost of wholesale power purchased by the cooperative. The actual purchased cost each month is variable and may fluctuate from month to month. To prevent constant over-charge or under-charge, the PCRF formula was developed to make appropriate adjustments on a monthly basis. Some months the PCRF will be a positive and some months a negative. The amount is calculated by multiplying the "KWH Usage" by the PCRF factor.

<u>Customer Charge:</u> The Customer Charge assists in recovering a portion of the fixed costs associated with the delivery of electric service to each meter location. These costs are incurred by the Cooperative regardless of the amount of energy that is consumed at each meter location. The Customer Charge component includes billing, accounting, customer service, meter reading, a portion of the distribution wire expense for metering, transformers, general operations maintenance and other expenses based on service to a minimum size customer.

<u>Operation Round Up:</u> Participating members will have their electric bills rounded up each month to the next whole dollar amount. This amount is contributed to the TVEC Charitable Foundation. The TVEC Charitable Foundation supports over 150 local agencies, such as, fire departments, senior citizen centers, education foundations, food banks, children's advocacy groups, animal shelters, libraries and many more.
